

DEEP-SEA

Development of Energy Efficiency
Planning and Services
for the Mobility
of Adriatic MARINAS

*ZERO EMISSIONS
IN THE ADRIATIC SEA*

PROJECT DURATION
01/01/2019 - 30/06/2021

ERDF
2.134.832,37 €

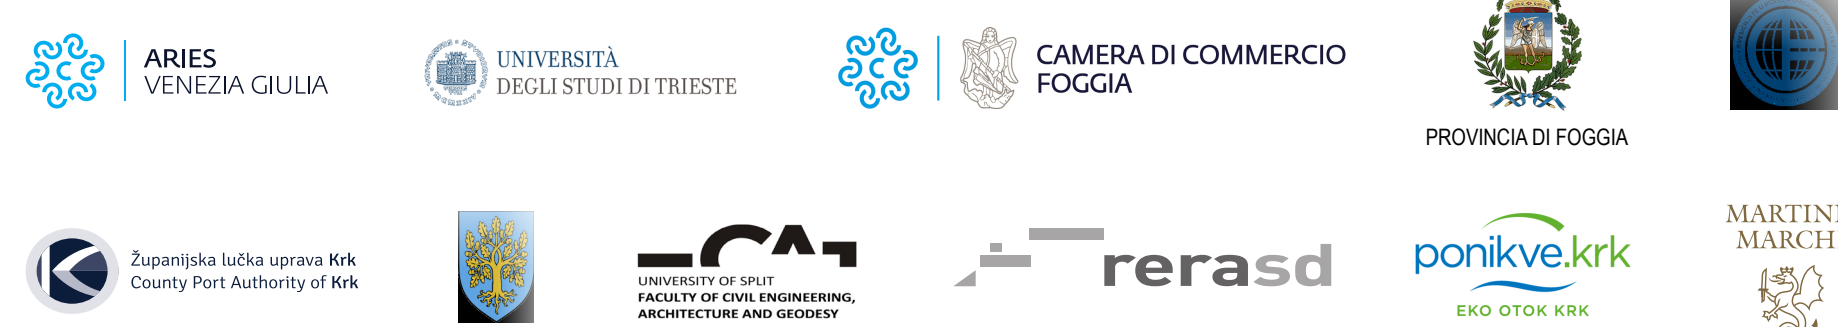

TOTAL BUDGET
2.511.567,5 €

DESCRIPTION

DEEP-SEA, by introducing innovative technologies, aims to develop energy efficient, sustainable and environmentally-friendly services inside and around nautical marinas with special focus on electric and shared mobility, to enhance low-carbon or zero emission mobility and greening in the Adriatic.
